# How to seal your Marble

4 Easy steps to keep your marble looking great

## Tips & Suggestions

- Wear gloves, or a mask, if the smell is too strong for you.
- Avoid using products containing ammonia or high levels of acid.
- **Use soap and water, or any cleaning product specified for natural stone to clean countertops.**

1

## Clear & Clean Countertops

- With a clean towel, clean countertops thoroughly with soap and water.
- Make sure dust particles are not on the surface.
- Ensure countertops are completely dry before step 2.

2

## Apply Sealer

- Take sealer and apply onto white towel.
- Once applied to towel begin to spread in circular motion in the area desired.

3

## Let It Penetrate

- Once applied, leave for the amount indicated on your product label.
- With another clean towel, wipe off and buff.
- MC Granite encourages you to seal your marble countertops 2 times a year.

4

## Have Piece Of Mind

Enjoy your Marble Countertops!!!
