

MC Granite Countertops Recommended Stain Remover

INSTRUCTIONS

1. Using a plastic or wood spatula, stir thoroughly to mix the paste.
2. Apply a 1/4" thick layer of paste to the stain. Ensure that the paste extends at least 1-2" beyond the edge of the stain.
3. Do not cover.
4. Allow 48-72 hours for paste to completely dry to a powder.
5. Remove dry paste and discard.
6. Allow solvent to completely dry from the stone.
7. If stain is not completely gone after drying, repeat process.
8. Clean up residue and tools with mineral spirits, (can be purchased at Home Depot in the painting department).
9. Reseal cleaned area.

BENEFITS

- Pulls out deep, set-in oil stains
- Leaves no residue
- Will not discolor stone
- Easy to use
